

DV350

– powerful crimp head with Elpress DUAL system

DV350 is a powerful and efficient crimp head with 35 tons crimp force. The head is used together with the electrically driven pump PS710 (the battery powered version, PS710E, is also available) or foot pump P4000, which makes the DV350 excellent for both mobile and stationary work.

Properties:

- Working pressure 63 MPa (630 bar)
- Crimp force 350 kN (35 tons)
- Large crimp area 240-1000 mm²
- Crimps aluminium and copper up to 1000 mm²
- DUAL crimp dies for crimping of copper 240-400 mm²
- Crimp die for crimping of copper 400-1000 mm²
- Matrix and punch for crimping of aluminium 300-1000 mm²
- Delivered fixed on a solid foot with a handle
